

RUSTIC TOP MOUNT HENDERSON

100kg Wood Metal Interior

Contemporary sliding barn door hardware with top mounted hangers for doors weighing up to 100kg

Overview

New to the range, our Rustic Top Mount offers a stylish, contemporary twist on our class Rustic 100 system - with its exposed hangers being mounted to the top of the door.

Ideal for barn conversations, period properties or simply for a unique feature in the home, the system caters for interior wooden doors weighing up to 100kg and is available in 2000mm and 3000mm track lengths. The kit is available in a matt black or stainless steel finish and comes complete with two oval flush pulls and a fittings kit is also available for double door specifications.

The system is also now available with an included single or double soft stop (80kg capacity). Simply push the door and the soft stop will gently decelerate the door and glide it into its final position, preventing unwanted slamming. The easy to install soft stop kit can be fitted to new or existing applications and can be combined with any finish of kit due to its discreet design.

Features and Benefits

- Traditional top mounted barn style hangers which attach to the top of the door
- Available in 2m or 3m track lengths
- Fittings kit available for double door specifications
- Kit comes complete with 2 oval flush pulls
- Optional fast fix soft stop kit available
