Brackets

SOFFIT FIX SHOWN  
FOR CLARITY

**PCH Suggested layout/Door Height**

**1. Fit Hanger Apron plate**

**2. Routing detail For Floor Guide**

### 3. Attach Floor Guides

### 4. Prepare Track

- i. Cut track to length required
- ii. Drill holes in track – hole size depends on fixing method. Use "V" to ensure holes central

### 5. Fit Track

### 6. Prepare and Fit Channel

- i. Mark plumb line positions at start and end of track
- ii. Cut channel to length required.
- iii. Fix in position.

It is the installer responsibility to ensure that the correct fixing/wall insert is used and is suitable - depending on the wall/ceiling/floor type and quality

### 7. Load Hangers and Stops to Track

### 8. Fit Door

PCH suggest door lift should be a "2 MAN" job.

i. Position guides into guide channel.

ii. Hook head of strap bolt into apron plate, as shown.

### 9. Fit Door

- i. Set Door height by rotating strap bolt on flats
- ii. Once position set – tighten thin nut against apron plate.

### 10. Check Door Height

### 11. Confirm Door Movement

### 12. Final positioning:

Position & secure track stop block at both ends of the track
