Professional sliding door system for wooden or metal doors weighing up to 120kg.

## Features & Benefits

- Sliding door system suitable for internal wooden or metal doors weighing up to 120kg each.
- Perfect for sliding wardrobes, passage doors or room dividers.
- Available in kit pack format for easy specification or as individual components for more complex applications.
- Manufactured from high quality materials to ensure the product is built to last.
- Available with a number of optional accessories to further enhance the performance of the product including dual soft close and low headroom kit.
- Designed with the installer in mind to make installation as easy as possible.
- High performing system featuring smooth operation and low friction.
- Fittings kit available for bi-parting door applications.

For sliding glass panels, please see our Husky 120 Pro Glass Clamps or Husky 120 Pro Glass Patches.

## Product Diagrams

IF INSTALLING COMPACT 120, PLEASE SEE SEPERATE DATASHEET FOR PRODUCT DIAGRAMS AND OVERVIEW.

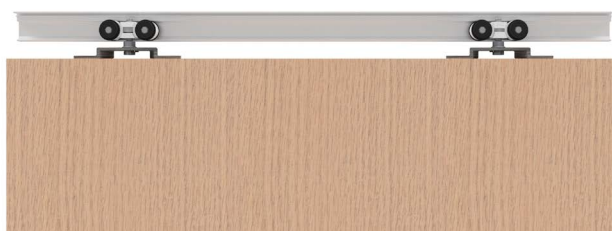

### FACE FIXED

### SOFFIT FIXED

### HUSKY 120 PRO INSTALLATION

### HUSKY 120 PRO SOFT CLOSE INSTALLATION (SOFTHP/60 OR SOFTHP/120)

### HUSKY 120 PRO SOFT CLOSE INSTALLATION (SOFTHP/WD)

## Optional Accessories

### Compact 120

Compact 120 is a low headroom kit which has been designed with concealed components which are routed into the top of the door - reducing the clearance between the track and top of the door to 2mm and giving an appearance of floor to ceiling doors.

Catering for wooden doors weighing up to 120kg, Compact 120 is suitable for applications with restricted headroom.

**If fitting Compact 120 with a soft close damper, please purchase SOTHHP/WD.**

Product Code	Min. Door Thickness	Max. Door Weight
CP120	35mm	120kg

### Simultaneous Action

Our Simultaneous Action kit is the perfect accessory for bi-parting sliding doors weighing up to 120kg each. Simple move one door and the other will open and close simultaneously, allowing for easy access between rooms.

**This kit is not compatible with soft close.**

Product Code	Door Thickness Range	Max. Door Width	Door Weight Range
SIMHP120	25 - 50mm	1250mm	25 - 120kg

### SnapFit Fascia

SnapFit offers an aluminium fascia for use with Husky 120 Pro sliding systems. The easy-to-install fascia mounts the Husky 120 Pro track and clips into place, allowing for a modern and professional finish. The fascia comes complete with end caps and is available for both soffit fixed and face fixed applications.

Product Code	Description
SFF/FF/****A	Face Fixed - 1800, 2000, 3000, 4000 & 6000mm
SFF/SF/****A	Soffit Fixed - 1800, 2000, 3000, 4000 & 6000mm

# Features & Benefits

## Adjustable Clip Stop

Holds the door in the open or closed position, allowing for easy access between rooms.

## Easy Adjustments

Designed with 'angled' apron plates to allow for easy adjustments post installation.

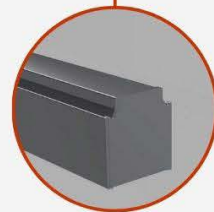

## Concealed Brackets

For face fixed applications, the brackets fix behind the track to allow for a discreet appearance.

## Discreet Guide

Designed with a discreet floor guide allowing for a seamless walkway between rooms.

## Durable Track

Made from anodised aluminium, the Husky 120 Pro track is extremely durable and scratch resistant.
