Locking system for use with Securefold and Securefold Bottom Rolling

Overview

The new and improved Twinbolt locking system is compatible with P C Henderson's Securefold range of exterior folding door hardware. One simple turn of a handle engages a 22mm throw to securely lock the doors at the top and bottom of the system.

Features and Benefits

- Five kits available
- Suitable for interior and exterior locking applications
- Impressive 22mm lock throw range
- Provides two points of secure locking using top and bottom throw rods
- Top lock rod is easily adjusted to suit standard and non standard door heights
- Bottom lock rod is factory set, fixing the handle height to 1050mm
- Practical and easy to install
- Accommodates any standard euro cylinder lock, providing increased flexibility
- Accessories include a stylish Malta Handle Kit and routing detail cover strips
